

a family affair

Picture this – the perfect family of embedded DVRs to meet your needs.

Honeywell's new HRSD and HRXD Systems Series is one family of embedded digital video recorders you'll want to get to know. From basic to advanced security, the economical HRSD 4, 8, and 16-channel series supports a capture rate of up to 120 images per second (ips), and the high-performing HRXD 9 and 16-channel series up to 240

ips. Both series combine the benefits of digital recording with advanced multiplexer processing and Honeywell's XtraStor compression technology—giving you more storage without sacrificing image quality. Who says there's no such thing as the perfect family?

Honeywell

The HRSD and HRXD Series includes Point-of-Sale and ATM connectivity for playback of video and associated text data and Remote Administration Software (RASplus). For more information, please call **1-800-796-CCTV (2288)** or visit honeywellvideo.com
